

Storage Conditions: Please keep stored out of direct sunlight. Do not let freeze.

*CAUTION: Overuse of this product will have negative effects on plant vigor, growth and health. You can have too much of a good thing.

HYPERroots Liquid Concentrate is a plant bio-stimulant derived from the ocean to help your plants thrive.

Directions:

Before Use: Please shake well.

HYPERroots Liquid can be used as a foliar spray or as a soil drench. Can be mixed with a surfactant, fertilizer or pesticides. Always test on a small batch of plants first to avoid undesired effects.

To dilute fill container with 2/3 filtered or distilled water then add HYPERroots Liquid and top off.

Foliar spray: Dilute 1-2 Oz per gallon. Use 1oz per gallon on seedling and younger plants. Use 2oz per gallon on established plants. Can be sprayed once a week.

Soil Drench: For younger plants use the Mild general purpose feed rates 3-4oz, for mature plants use General purpose feed rates 6-13oz. For optimal results use bi-weekly or once a month.
